*Our collaboration*

**Abstract**

This sample article shows how to type a CERN PPE preprint using the standard generic notation for the tagging of authors, institutes and the likes on the title page. It also teaches how to include a picture and a table and how to get the typographic type correct right inside mathematics mode. Furthermore there is a citation and a bibliography. This ends the funny abstract.

*(Submitted to some important Journal)*

*To be presented by the author  
on the conference in somewhere at sometimes.*

*NOTE: not yet final*

*Dedicated to AAA*
